Damir Sertic,  
Master Chef and official Zepter Chef

With today's stressful and fast-paced lifestyle, optimal nutrition and a well-balanced diet pose an ever increasing challenge to be and stay healthy.

ArtMix Pro fits perfectly into the modern and busy lifestyle of today.

Fast, easy and versatile blender

for the preparation of healthy, tasty

meals and less chaos in the kitchen. Discover the transforming power of ArtMix Pro, which helps you to save time and gives your food a professional finish. Its benefits are appreciated by hobby chefs

and culinary masters alike.

Enjoy being creative in making delicious, healthy cakes,

baby meals, soups and main courses in no time.

## Smart kitchen appliance for fast and hustle-free preparation of healthy meals

## Sustainable Technology

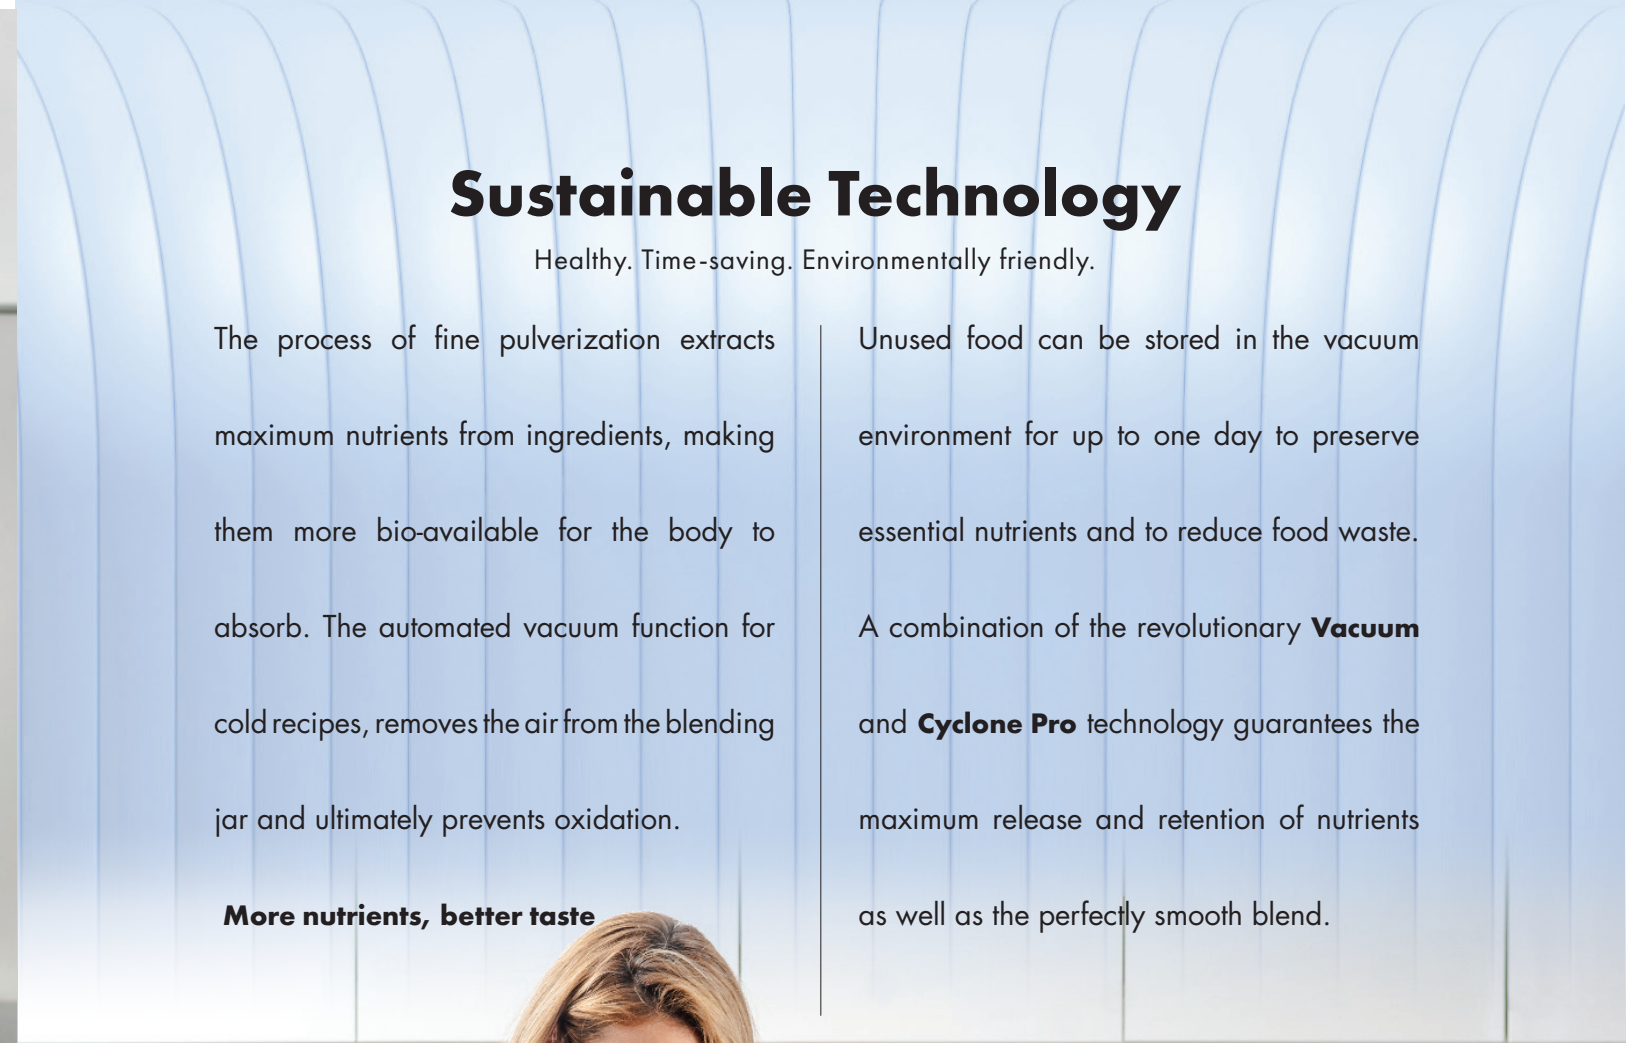

Healthy. Time-saving. Environmentally friendly.

The process of fine pulverization extracts maximum nutrients from ingredients, making them more bio-available for the body to absorb. The automated vacuum function for cold recipes, removes the air from the blending jar and ultimately prevents oxidation.

**More nutrients, better taste**

Unused food can be stored in the vacuum environment for up to one day to preserve essential nutrients and to reduce food waste.

A combination of the revolutionary **Vacuum** and **Cyclone Pro** technology guarantees the maximum release and retention of nutrients as well as the perfectly smooth blend.

ArtMix PRO drink with **full spectrum** of vitamins and minerals preserved during preparation.

Oxidised mix, lacking in vitamins and minerals, prepared in other blenders not so powerful as Artmix Pro and with no special functions or features.

### Automatic HOT programs

- Soups with a more fluid consistency
- Sauces and thick creamy soups
- Porridge, plain or with fresh fruits, from finely ground grains
- Compotes from different types of fruits and berries
- Multigrain milk from nuts and grains
- Porridge from coarse cereals
- Baby food and savoury purees
- Self-cleaning function

### Automatic COLD programs

- Automatic air extraction to prevent oxidation
- Juices from hard fruits and vegetables
- Milk shakes and fruit cocktails from soft or pre-cooked hard fruits
- Frozen milk shakes or fresh fruit frappe
- Crash max 8 small sized cubes at one go
- Fruit juice from soft and exotic fruits
- Nut milk from different types of pre-soaked nuts
- Self-cleaning function

**16 Automatic programs** with optional manual adjustments

**Manual** time adjustment from 20 to 100 minutes (in 20-minutes intervals)

**10** manual speed settings

The path to better health
